FOOTPRINT

The NEMO Footprint is a 70D abrasion-resistant nylon fabric tarp perfectly sized to fit underneath your tent. The fabric is PU-coated for waterproofness (10,000 mm). The footprint reduces wear and tear on your tent floor from contact with the ground. To protect the inside of your tent, please see our Pawprint™ series.

Setup Instructions

Esprī™/Losī™/Losī Storm™/Asashi™ series tents: To install the Footprint, attach the clips at the four corners of the footprint to the corresponding bar on the Jake's Foot at the anchors of the tent. You can also unclip the tent from the Jake's Feet and use only the fly and footprint to make a lightweight shelter.

Meta™ series tents: use the Footprint with the NEMO label facing up. Set up the tent on top of the footprint and fasten the hook on footprint onto the webbing at the corners of the tent.

Andī™/Nano Elite™/Morpho™/Moki™ series tents: use the Footprint with the NEMO label facing up. Set up the tent on top of the footprint and hook the split rings over the webbing at the corners of the tent.

Care and Repair / Warranty

Hand Wash

NEMO guarantees every product we sell. We put a great effort into choosing the best materials and providing you with the highest level of workmanship. NEMO products carry a lifetime warranty against defects in workmanship and materials to original owner, with proof of purchase.

Line Dry
