## Tent Gear Caddies

\*Styles Vary By Model

\*Patents Pending

NEMO guarantees every product we sell. We put a great effort into choosing the best materials and providing you with the highest level of workmanship. If one of our products does not meet your expectations during its useful life, we promise to repair it, replace it, exchange it, or give you a refund at our discretion.

1. To install the Gear Caddy, attach the clips at each corner to the corresponding webbing loops at the end of the tent. Although Losi™ series tents come with one gear caddy, a second one can be installed on the opposite end of the tent.

2. Some Gear Caddies include a special pocket for your headlamp with a light-diffusing fabric. Place your head lamp in the LightPocket™ with the light facing towards the inside of the tent.

3. Most headlamps have a focused beam, and hanging your lamp inside the tent can be frustrating. The LightPocket™ will help cast an even glow throughout the tent interior.
