

ESPRI™ TREKKING POLE VESTIBULE

The Trekking Pole Vestibule zips directly to your fly and utilizes a trekking pole for support. It creates a vestibule with a far bigger volume and floor area than the Standard Vestibule with very little additional weight. Besides sheltering more of your gear outside the tent, it also serves as an easier entry/exit.

Floor Area:	21 sq ft (2.0 sq m)	24 sq ft (2.3 sq m)

Setup

1. Unzip and disconnect any alternative door or vestibule. Note: When facing the tent, the zipper will release the vestibule on the left side. Zip the Trekking Pole Vestibule to the tent fly. Make sure to close the snaps at the end of the zippers.

2. Stake the EsPRI™ Trekking Pole Vestibule in place to create the proper tension.

3. Slide the handle of the trekking pole into the reinforced pocket at the top of the vestibule and extend the trekking pole upwards for maximum tension.

Hand Wash

Line Dry

Do Not Bleach

Do Not Iron

NEMO guarantees every product we sell. We put a great effort into choosing the best materials and providing you with the highest level of workmanship. NEMO products carry a lifetime warranty against defects in workmanship and materials to original owner, with proof of purchase. NEMO does not warranty products against normal wear and tear, unauthorized modifications or alterations, improper use, improper maintenance, misuse or neglect or if the product is used for a purpose for which it is not intended.
