

TUO 20R

Made in Taiwan

NEMO is founded on a commitment to adventure, to the fearless pursuit of uncharted paths, in everything from the equipment we build to the way we run our business. Bravely exploring new directions opens our minds, brings us closer to the people we depend on, sharpens our wits, and lifts our spirits. Adventure gives us purpose and perspective. It makes us humble and proud. We believe meaningful adventures are possible for anyone, anywhere. Possible, that is, if you bring the will, the imagination, and the right gear.

-20 to -15C

## TUO™ SERIES

Tuo™ sleeping pads have a thin film inside that weighs almost nothing and divides the pad into two separate airtight levels, each with its own valve. The base layer can be inflated firm for protection from rocks and roots, and the top layer inflated according to comfort needs. The two layers give complete redundancy in the event of a puncture. All Tuo™ models include a stuff sack, compression strap, and repair patches.

NEMO's sleeping pads bring a new level of comfort to the backcountry. Literally. Learn more about the unique anatomy of the pads at [www.nemoequipment.com](http://www.nemoequipment.com)

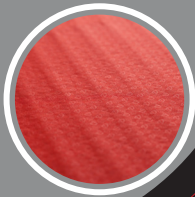

Two independently inflated foam layers separated by an airtight film maximize comfort and add redundancy. The top layer of foam is cross drilled to reduce weight and packed size.

## TUO™ SERIES

High tear strength fabric for abrasion resistance even in the toughest conditions.
