SETUP GUIDE

Note: Garage replaces the vestibule on the front of the Wagontop 4P. On the Wagontop 6 and 8P, it installs at the back door.

1. Clip the garage to the Wagontop™ using the 8 buckles on the underside of the awning.

2. Feed the pole into the green pole sleeve on the garage, attach the pole clips (x2), and insert the pole tips into the grommets.

3. With the pole pulled away from the tent until the fabric is taut, stake it out at pole tips and on either side of the door.
